

Impact Assessment of WDRA's Farmer Awareness Program (FY 2024–25)

Date :	21/06/2025
Submitted to:	Warehouse Development and Regulatory Authority (WDRA)
QCI Node:	Project Planning and Implementation Division (PPID)

Quality Council of India (QCI) is an autonomous organisation established in 1997, through joint initiative of the Government of India and the Indian industry, pursuant to resolution of the Indian Cabinet in 1996. It is registered as a Society under the Societies Registration Act, 1860 with the mandate to establish and operate the national accreditation system in India and promote quality in all aspects of life, industry, environment, and governance. It is a self-sustaining independent organisation with complete financial, administrative, and functional autonomy. The Department for Promotion of Industry and Internal Trade (DPIIT), Ministry of Commerce and Industry, Government of India is the nodal point in the government for QCI and all matters concerning quality. The Governing Council of the Society is the apex governing organ of QCI and consists of equal representation of government, industry, and other stakeholders. Chairperson, QCI is nominated by the Prime Minister of India.

DRAFT

I. INTRODUCTION

1. BACKGROUND

- 1.1. The Warehouse Development and Regulatory Authority (WDRA) has undertaken a critical initiative to improve awareness among farmers about scientific storage practices, benefits of warehousing, and the operational use of the e-Negotiable Warehouse Receipt (e-NWR) system. During FY 2024–25, 212 Farmer Awareness Programs (FAP) were conducted across 15 states, covering 10,869 farmers, in collaboration with 22 empanelled training agencies.
- 1.2. Recognising the strategic importance of this initiative in enhancing post-harvest management and enabling better price realisation for farmers, WDRA proposes a structured Impact Assessment Study to:
 - 1.2.1. Evaluate the effectiveness of these programs,
 - 1.2.2. Measure their contribution to farmer awareness and adoption of warehousing services,
 - 1.2.3. Gather evidence-based insights for strengthening future awareness interventions.
- 1.3. In accordance with WDRA's letter No. T-22041/9/2025-Technical/865 dated 20-05-2025, inviting QCI to submit a detailed proposal outlining the methodology, scope, timelines, deliverables, and estimated cost for conducting a third-party impact evaluation of the Farmer Awareness Program for FY 2024–25, we are pleased to submit this comprehensive proposal for your consideration.

II. ABOUT QUALITY COUNCIL OF INDIA

2. MANDATE & STRUCTURE

- 2.1. Quality Council of India (QCI) has been set up as a non-profit autonomous society to establish and operate the national accreditation system in the country and to spread the quality movement in India by undertaking a national quality campaign. It was formed by the joint initiative of the Government of India and the Indian Industry associations like the Associated Chambers of Commerce and Industry of India (ASSOCHAM), Confederation of Indian Industry (CII), and Federation of Indian Chambers of Commerce and Industry (FICCI).
- 2.2. QCI has established Constituent Boards, Divisions, and Cells catering to various aspects of quality. Its Boards are full members of international systems of accreditation and have multilateral mutual recognition arrangements (MRAs/MLAs) that allow for international equivalence and recognition of conformity assessment outcomes. It also facilitates the design, development, and implementation of initiatives that leverage the strength of its accredited bodies in providing an independent, impartial, and credible mechanism for assuring quality across spheres of life. In the past 10 years, QCI Professionals have engaged with 90+ ministries and departments of the Union and State Governments in executing 400+ projects across multivariate spheres.

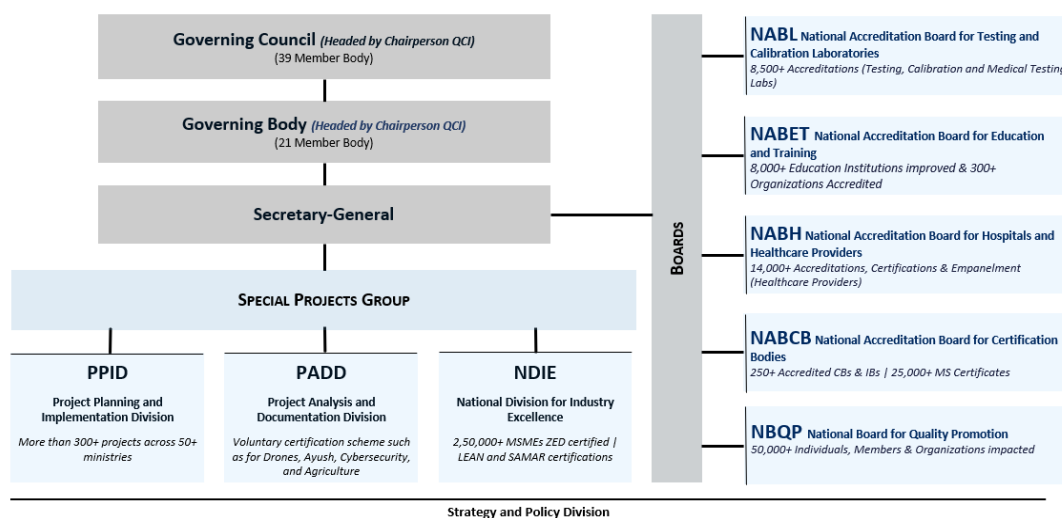

Figure 1: QCI Organization Structure

2.3. Constituent Boards

- 2.3.1. **National Accreditation Board for Testing & Calibration Laboratories (NABL):** Provides accreditation to testing, calibration, medical laboratories, proficiency testing providers (PTP), and reference material producers (RMP) for a specific scope following the international standards and based on assessment of technical competence. NABL is a member of the International Laboratory Accreditation Cooperation (ILAC) and the Asia Pacific Accreditation Cooperation (APAC).
- 2.3.2. **National Accreditation Board for Certification Bodies (NABCB):** Provides accreditation to Certification, Inspection, and Validation/Verification Bodies based on assessment of their competence as per international standards. NABCB is a full member of the International Accreditation Forum (IAF), International Laboratory Accreditation Cooperation (ILAC), and Asia Pacific Accreditation Cooperation (APAC).
- 2.3.3. **National Accreditation Board for Hospitals and Healthcare Providers (NABH):** Provides accreditation to hospitals and other healthcare organisations. NABH is a member of the International Society for Quality in Healthcare (IsQua), and its accreditations are internationally accepted. It is also a member of the Asian Society for Quality in Healthcare.
- 2.3.4. **National Accreditation Board for Education & Training (NABET):** Has set up a well-established mechanism for overall quality assurance in sectors such as services, education both formal and non-formal, industry, environment etc.
- 2.3.5. **National Board for Quality Promotion (NBQP):** Promotes quality across sectors through focused campaigns and strategic engagement with several partner organisations.

2.4. Special Projects Group (Cells and Divisions)

- 2.4.1. **Project Planning and Implementation Division (PPID):** Executes projects related to Monitoring and Evaluation of Government Flagship Schemes as required by various Government Ministries/Departments and Strategy and Policy Based Projects.
- 2.4.2. **Projects Analysis and Documentation Division (PADD):** Handles various voluntary certification schemes like the Voluntary Certification Scheme for Medicinal Plant Produce (VCSMPP), and INDG.A.P., Ready Mix Concrete Plant Certification Scheme (RMCPSC), Certification Scheme for Unmanned Aircraft Systems (UAS) etc.
- 2.4.3. **National Division for Industry Excellence (NDIE)** Aims at enhancing the global competitiveness of MSMEs by gauging the manufacturer's maturity in several disciplines and gradually building their capabilities to become world-class. The ZED Maturity Assessment Model has been conceived and structured to offer graded benchmark levels of an organization's performance through a set of standard enablers and outcomes focused on quality, environmental, and other performance indices.
- 2.4.4. **Strategy and Policy Division:** Specialized Unit complementing and augmenting the capacity of the government in policy making, especially in the field of quality. It provides services in the following domains: (a) quality evaluation of goods, services, programmes, processes, and organisations, (b) strategic research and advisory in regulation, policy, quality, technology, and population scale transformations, and (c) knowledge development and analysis for emerging/futures policies.

III. SIMILAR PROJECTS UNDERTAKEN BY QCI

3. IMPACT ASSESSMENT PROJECTS UNDERTAKEN BY QCI

3.1. Impact Evaluation of Policing Reforms

- QCI conducted an impact assessment across all 36 States/UTs to evaluate the impact of the Prime Minister's recommendations from DGPs/IGPs conferences (2014-2021).
- Data was collected from three stakeholder groups: Nodal officers, SHOs, and citizens. Approximately 3.5 lakh citizens were successfully surveyed, which required reaching 10 lakh citizens nationwide

3.2. Impact Evaluation Study of Heritage City Development and Augmentation Yojana (HRIDAY) Scheme

- For MoHUA, the Quality Council of India conducted an Impact Assessment Study in 2023 to evaluate the scheme's impact on revitalizing heritage areas and enhancing overall quality of life.
- The study involved a multidisciplinary team and utilized a citizen perception survey covering dimensions such as sanitation, security, tourism, heritage revitalization, livelihoods.

3.3. Impact Assessment of Village Social Transformation Foundation (VSTF)

- QCI conducted an Impact Assessment Study of the VSTF interventions across 149 Gram Panchayats (GPs) in 6 districts of Maharashtra—Amravati, Yavatmal, Gadchiroli, Chandrapur, Aurangabad, and Raigad.
- The study evaluated the impact and transformation brought by VSTF through NGO partnerships and CMRDF fellows in key sectors such as agriculture, rural housing, community infrastructure, drinking water, and sanitation

3.4. Impact Assessment of GPs under Atal Bhujal Yojana

- For the Ministry of Jal Shakti, QCI prepared Water Security Plans (WSPs) based on water budgets, outlining investments and interventions to ensure sustainable water use, tailored to address local challenges, through continuous monitoring and analysis.
- QCI was engaged as a Third-Party Government Agency (TPGVA) to independently verify results related to Disbursement linked Indicators. The verification process comprised two distinct phases: Desktop assessment and Field Verification.

3.5. Mid Term Evaluation of Start-up Village Entrepreneurship Programme (SVEP)

- Ministry of Rural Development started SVEP as a sub-scheme under National Rural Livelihood Mission to set up enterprises in rural India, providing sustainable livelihoods and self-employment opportunities, financial assistance, and training in 24 states and create employment for 3.78 lakh rural poor.
- QCI carried out assessment of project implementation on mobilizing communities, setting up & strengthening community structures, training and capacity building.
- QCI conducted a mid-term evaluation to identify potential strategies for ensuring the sustainability of the project.

IV. SCOPE OF WORK

4. OBJECTIVES OF THE STUDY

As per the scope outlined by WDRA, the objectives are:

- 4.1. To assess the levels of awareness, recall, comprehension, and knowledge retention among farmers who participated in the WDRA-organized awareness programs.
- 4.2. To evaluate the extent of behavioral change, particularly in terms of farmers' actual usage of WDRA-accredited warehouses and adoption of the e-NWR system.

- 4.3. To collect structured feedback from farmers regarding the delivery, content relevance, and effectiveness of the awareness programs.
- 4.4. To consult with key stakeholders, including training agencies, warehouse managers, and WDRA regional officers, to understand operational efficiencies and constraints.
- 4.5. To propose actionable recommendations for refining and improving future awareness programs for enhanced farmer participation and service adoption.
- 4.6. To develop an Agri Warehousing Sentiment Index (AWSI) capturing farmer perception, trust, service accessibility, and intent to adopt warehousing services, benchmarked at national and state levels.

5. SCOPE OF WORK

As per WDRA's mandate, the scope of the impact evaluation will cover:

- 5.1. Review of program implementation records shared by WDRA.
- 5.2. Preparation of a comprehensive sampling framework covering farmers trained under the awareness program and registered e-NWR users.
- 5.3. Primary data collection through telephonic surveys, Focus Group Discussions (FGDs), and Key Informant Interviews (KIIs).
- 5.4. Analysis of quantitative and qualitative data to generate program outcome insights.
- 5.5. Development and computation of a state-wise and national-level Agri Warehousing Sentiment Index (AWSI), based on farmer survey responses across multiple perception parameters.
- 5.6. Preparation and submission of an Impact Evaluation Report, highlighting awareness outcomes, adoption patterns, operational feedback, AWSI results, and strategic recommendations.

6. DETAILED METHODOLOGY

The assessment will adopt a mixed-method approach, combining quantitative surveys and qualitative consultations for comprehensive program evaluation.

- 6.1. Impact Assessment Principles Applied (Detailed in Annexure 1)
 - 6.1.1 **Relevance:** Assessing alignment of the program with farmer needs.
 - 6.1.2 **Effectiveness:** Measuring awareness outcomes against objectives.
 - 6.1.3 **Impact:** Evaluating behavioural changes and service adoption.
 - 6.1.4 **Efficiency:** Reviewing operational delivery mechanisms.
 - 6.1.5 **Sustainability:** Examining long-term knowledge retention and behavioural patterns.
- 6.2 A **mixed-method approach**, including Quantitative surveys of farmers and Qualitative interactions with stakeholders, will be used for the impact assessment.
- 6.3 **Quantitative Data: Study Design and Sample Size Calculation**
 - 6.3.1 To quantitatively assess farmer awareness levels, recall of program content, adoption of warehousing services, and satisfaction with WDRA-organized training programs, structured telephonic surveys shall be conducted with selected farmers.
 - 6.3.2 Using Cochran's formula for sample size determination at a 95% confidence level and a $\pm 5\%$ margin of error, the minimum required sample size is calculated as follows:

$$n_0 = Z^2 \cdot p \cdot (1-p) / E^2$$
 - 6.3.3 Based on Cochran's formula, the sample size derived was for 382 farmers; however, to ensure robustness and account for non-responses, a total sample of **400 farmers will be surveyed**.

- 6.3.4 A **dual-source sampling framework** will be adopted, targeting:
- Group A: 320 Farmers who participated in the awareness programs conducted by the 22 training agencies.
 - Group B: 80 Farmers who have registered with and transacted at WDRA-accredited warehouses through the e-NWR system

6.3.5 **Agri Warehousing Sentiment Index (AWSI) Development** (Detailed in Annexure 2)

- 6.3.5.1 A composite Agri Warehousing Sentiment Index (AWSI) will be constructed based on farmer responses across select key parameters:

- i. Awareness of WDRA-accredited warehouses.
- ii. Awareness of e-NWR benefits.
- iii. Trust in accredited warehouse operators.
- iv. Ease of accessing warehousing services.
- v. Perceived financial benefits from warehousing.
- vi. Willingness to store produce at a warehouse in the upcoming season.
- vii. Experience with training program (if applicable).

- 6.3.5.2 Each parameter will be rated on a scale of 0–5 by respondents. The composite AWSI score will be computed as:

$$AWSI = (Sum\ of\ parameter\ scores\ per\ respondent / Maximum\ possible\ score) \times 100$$

Index values will be aggregated at the state and national levels to classify overall farmer sentiment as:

- 75 = High Sentiment
- 50–75 = Moderate Sentiment
- < 50 = Low Sentiment

- 6.3.5.3 This index will serve as a baseline benchmark for WDRA's future awareness and warehousing service adoption initiatives. This shall be a separate chapter in the report.

6.4 **Qualitative Consultations: Key Informant Interviews (KIIs)**

- 6.4.1 **Purpose:** To gather operational insights, implementation experiences, and field-level perspectives from key stakeholders involved in the program's delivery and oversight.

6.4.2 **Proposed Participants:**

- i. WDRA Regional Officers
- ii. Managers of WDRA-accredited warehouses
- iii. Heads or coordinators of empanelled training agencies
- iv. State-level agricultural marketing officers (if relevant)

- 6.4.3 **Number of Interviews:** A total of 20–25 KIIs will be conducted across the 15 states, ensuring proportional coverage and regional balance.

6.4.4 **Themes to Explore:**

- i. Program delivery effectiveness and challenges
- ii. Farmers' response and participation experience
- iii. Post-training behavior change observations
- iv. Operational and logistical issues faced
- v. Suggestions for improving future awareness initiatives

6.5 **Qualitative Consultations: Focus Group Discussions (FGDs)**

- 6.5.1 **Purpose:** To capture qualitative insights on farmers' program experiences, awareness recall, trust levels, and actual adoption behavior through moderated group conversations.

- 6.5.2 **Target Participants:** Farmers who attended the awareness programs, selected to represent diversity in landholding size, crop types, market participation, and geographic location.

- 6.5.3 **Number and Locations:** 12–14 FGDs to be organized in 6-8 key states such as Kerala, Rajasthan, Gujarat, Uttar Pradesh, Maharashtra, and Telangana, based on program coverage and operational feasibility.
- 6.5.4 **Discussion Focus Areas:**
- i. Farmers' recall of training content and key messages
 - ii. Changes in knowledge, perceptions, and attitudes post-program
 - iii. Usage of WDRA-accredited warehousing services and e-NWR
 - iv. Factors influencing their warehousing decisions
 - v. Barriers to adoption and suggestions for improvement
- 6.5.5 **Group Size:** Each FGD will comprise 6–10 farmers to ensure effective moderation and rich interaction.
- 6.5.6 **Deliverables from Qualitative Consultations:**
- i. Thematic summaries from all KIIs and FGDs
 - ii. Integration of qualitative findings into the Impact Evaluation Report
 - iii. Specific qualitative quotes and case narratives (where appropriate)

7. QUALITY ASSURANCE

To uphold data integrity and reliability:

- 7.1. Survey tools will undergo pilot testing in two states.
- 7.2. Enumerators will receive intensive training on data collection protocols.
- 7.3. A minimum of 15% of completed surveys will be back-checked for verification.
- 7.4. Real-time data progress monitoring and validation will be available.

8. LIMITATIONS

- 8.1. Farmer surveys may be subject to recall bias due to the time elapsed since the FY 2024-25 programs
- 8.2. Based on past experiences with impact assessment projects, unreturned calls from respondents, even after multiple attempts, can lead to significant delays and a loss of demographic variance.
- 8.3. Self-reported data can be limited by social desirability bias or an inability to accurately reflect behavioral changes
- 8.4. Stratified sampling may be limited if detailed demographic data (Farmer's details) is unavailable or logistical constraints hinder diverse sampling.
- 8.5. Project timelines and assessment depth may be impacted by delays or incompleteness in receiving crucial program details and participant lists from WDRA
- 8.6. Linguistic limitations may arise in southern states due to the need for local language support in communication, given their significant representation in the training programs.

9. ETHICAL CONSIDERATIONS

- 9.1. **Informed Consent:** consent will be sought from all participating farmers in surveys, FGDs, and KIIs by ensuring they fully understand the study's purpose, how their data will be used, that their participation is voluntary, and that they can withdraw at any time
- 9.2. **Confidentiality and Anonymity:** will be upheld by protecting the identity of all respondents and ensuring individual responses cannot be traced back to them, particularly for sensitive feedback or adoption behaviors.
- 9.3. **Objectivity and Impartiality:** will be maintained in all aspects of data collection, analysis, and reporting to ensure that our findings accurately reflect the program's impact without favoritism or predetermined outcomes.

- 9.4. **Transparency:** will be ensured by clearly documenting our methodology, sampling framework, data collection tools, and analytical approaches, allowing for scrutiny and replication of the study.
- 9.5. **Coercion:** will be taken care, ensuring that farmers are not pressured or incentivized in any way that compromises the voluntariness of their participation
- 9.6. **Fair Representation:** will be done by aiming for accurate and balanced representation of all participating states and farmer groups in our sampling, even when faced with challenges like unreturned calls or limited demographic data, to prevent skewed results
- 9.7. **Cultural Sensitivity:** will be taken care of by conducting interactions and interpreting responses with a deep understanding and respect for local customs, traditions, and language nuances, recognizing the specific need for local language support in southern states.

DRAFT

V. TIMELINES

11. PROJECT TIMELINES

The total duration for this assignment is estimated at **12 weeks from the issuance of the work order**, distributed as follows:

Table 1 – Timeline of Activities (Tentative)

Action Plan	Timeline (Week)
Phase 1: Planning & Inception	
1. Finalization of the study team and onboarding of field enumerators, data analysts, and research leads.	Week 1
2. Preparation of sampling plan, survey tools, AWSI framework, and work plan.	Week 1–2
3. Development and pilot testing of survey tools (Questionnaire, FGD, KII checklists).	Week 2
Phase 2: Data Collection	
4. Obtain and review program documents, training records, e-NWR transaction data, and participant lists from WDRA.	Week 2–3
5. Roll-out of telephonic surveys with farmers (Group A and Group B as per sampling plan).	Week 3–6
6. Conduct 12-14 FGDs in 6–8 key states to capture qualitative insights.	Week 4–7
7. Conduct KIIs with WDRA regional officers, training agency heads, and warehouse managers.	Week 4–7
Phase 3: Data Analysis & Reporting	
8. Cleaning, validation, and consolidation of primary data.	Week 7–8
9. Computation of Agri Warehousing Sentiment Index (AWSI) at national and state levels.	Week 8
10. Thematic analysis of qualitative data from FGDs and KIIs.	Week 8–9
Phase 4: Draft Reporting & Review	
11. Drafting of Impact Evaluation Report (including AWSI, key findings, recommendations).	Week 9–10
12. Submission of Draft Report and Presentation to WDRA.	Week 10
Phase 5: Finalization & Closure	
13. Incorporation of feedback from WDRA into the final report.	Week 11
14. Submission of Final Report, PowerPoint deck, and AWSI Chapter.	Week 12

VI. FINANCIALS^

12. PROJECT FINANCIALS

Project Financials						
S. No.	Action item	Unit cost (in INR)	Number	Unit	Quantity	Total Cost (in INR)
A.	Human Resources^^^					
A.1	Project Lead [No. x Timeline of Project]	₹ 1,50,000	1	Man-Month	3	₹ 4,50,000
A.2	QCI Professionals [No. x Timeline of Project]	₹ 1,00,000	4	Man-Month	3	₹ 12,00,000
A.3	Digital Form subscription	₹ 25,000		One-Time		₹ 25,000
Total Human Resources Cost (A)						₹ 16,75,000
B	Logistic and Travel Cost					
B.1	Logistic and Travel Cost [2 No. x 24 Days]	₹ 25,000	24	Man-Day	2	₹ 12,00,000
B.2	Subject Matter Expert	₹ 10,000		Man-Day	10	₹ 1,00,000
Total Ancillary Cost (B)						₹ 13,00,000
C	Report					
C.1	Report and Designing	₹ 1,00,000		One-Time		₹ 1,00,000
Total Report Cost (C)						₹ 1,00,000
Sub Total (A+B+C)						₹ 30,75,000
Administrative Cost (12% of sub-total)						₹ 3,69,000
Grand Total (Sub-total + Administrative Charges)						₹ 34,44,000
Total Cost***						₹ 34,44,000
Thirty Four Lakhs Forty Four Thousand Rupees + Applicable Taxes						

13. PAYMENT MILESTONES

The payment structure for the proposed methodology is proposed as below:

- It has been considered that the project will be completed in 90 days, based on which the following payment structure has been proposed:

Sr. no.	Schedule / Milestones	Percentage (%) of Contract Value
Milestone 1	Award of Work Order	50
Milestone 2	Submission of Final Report	50

Note: The schedule/milestones mentioned in the table above is applicable for total cost.

14. PAYMENT TERMS

- 14.1. ^The financials presented are based on the current scope of work and are subject to change if the project's scope or timelines are expanded.
- 14.2. ^^Human resources costs are subject to change and will be adjusted based on actuals if there is an expansion of scope or revision of timelines.
- 14.3. ***Taxes, as applicable, are not included in the provided financials and will be charged extra as applicable.

DRAFT

VII. GENERAL TERMS

- i. **AMENDMENT OF AGREEMENT:** No amendment or modification of the agreement authorizing this project shall be valid unless it is made in writing jointly by both parties or by their authorized representatives and especially stating the reason for the amendment to this agreement. The modification or changes shall be effective from the date wherein they are made or executed unless otherwise agreed.
- ii. **FORCE MAJEURE:** The parties shall ensure compliance with the terms of this agreement. However, no party shall be liable for any claim for any loss or damage, of whatsoever nature, arising out of failure to carry out the terms of the agreement, wherein, such a failure is due to force majeure events. Force majeure shall mean and consist of events such as fire, rebellion, mutiny, civil commotion, riots, strike, lockout, a force of nature, accident, an act of God, or any other reason beyond the control of the concerned party.
- iii. **ARBITRATION:** In case of any disputes arising between the Parties, such disputes shall be settled by arbitration with the sole arbitrator (to be jointly appointed in 30 days) following the procedure prescribed in the Indian Arbitration and Conciliation Act, 1996 or any statutory modification or re-enactment thereof and the rules made thereunder and for the time being in force. Proceedings shall unless otherwise agreed by the parties, be held in Delhi, India. The governing law will be the laws of India. The language will be English.
- iv. **NOTICE:** All notices permitted or required to be given under the provisions of this agreement shall be deemed to be sufficiently given whether written and delivered personally and/or sent to the other party by telefax and/or certified and registered air mail and/or email and/or addressed to the registered office of the other party as follows and/or to such other party address as the party may give notice in writing. Unless otherwise provided herein, all such notices shall be deemed to have been given as of the date they are personally delivered or transmitted by telefax or email or deposited in the mail.

VIII. ANNEXURES

ANNEXURE 1

Evaluation Criteria Framework

This framework outlines the key evaluation criteria that will guide the assessment of the WDRA farmer awareness program's performance and outcomes, ensuring a structured, objective, and policy-relevant evaluation.

Criteria	What it Assesses	Application in WDRA Farmer Awareness Program
Relevance	Whether the program addresses the actual needs, priorities, and informational gaps of the target beneficiaries	Does the awareness program align with farmers' needs for market access, post-harvest storage solutions, and financial security through warehouse receipts?
Effectiveness	The extent to which intended objectives and outcomes have been achieved	Did farmers' awareness, comprehension, and willingness to use WDRA-accredited warehouses and e-NWR systems increase as planned?
Efficiency	The optimal use of resources (time, cost, manpower) to deliver outcomes	Was the program cost-effective in terms of farmers reached per training session, and were operational resources deployed optimally?
Impact	The broader, longer-term positive or negative effects of the program on the target group	Has the program led to an increase in the number of farmers availing accredited warehousing services and using e-NWRs for securing loans and better price realization?
Sustainability	The likelihood that program benefits will be sustained beyond its active period	Are farmers likely to retain knowledge and continue adopting scientific warehousing and e-NWR services in future cropping seasons without continuous external support?

ANNEXURE 2

Agri-Warehousing Sentiment Index (AWSI) Scoring Framework

This framework outlines the key evaluation criteria that will guide the assessment of the WDRA Farmer Awareness Program's performance and outcomes, ensuring a structured, objective, and policy-relevant evaluation.

Parameter	Score Range	What it Captures
Awareness of WDRA-accredited warehousing facilities	0–5	Extent of knowledge about the existence and purpose of accredited warehouses
Awareness of e-Negotiable Warehouse Receipt (e-NWR) benefits	0–5	Understanding of how e-NWR works and its advantages for farmers
Trust in accredited warehouse operators	0–5	Level of confidence in warehouse operators for fair, transparent, and secure services
Ease of accessing warehousing services	0–5	Farmers' perception of operational ease and approachability of warehousing services
Perceived financial benefits from warehousing	0–5	Farmers' views on whether warehousing has improved their income or price realization
Willingness to store produce in a warehouse next season	0–5	Likelihood of farmers using warehouse services in upcoming crop seasons
Satisfaction with Awareness Program (if attended)	0–5	Overall satisfaction with the training content, delivery, and utility

Index Computation Formula

AWSI Score for each respondent:

$$AWSI = (\text{Sum of parameter scores per respondent} / \text{Maximum possible score}) \times 100$$

Example:

If a respondent scores 28 out of a maximum 35 points (7 parameters × 5 max points):

$$AWSI = (28/35) \times 100 = 80.0$$

Index Classification

AWSI Score Interpretation

> 75	High Sentiment
50–75	Moderate Sentiment
< 50	Low Sentiment

Illustrative Example: AWSI at State and National Levels

After computing individual AWSI scores for each surveyed respondent, state-wise average AWSI values can be derived and then aggregated to compute the national AWSI.

State-wise AWSI Example

State	Number of Respondents	Average AWSI Score (%)	Sentiment Category
Andhra Pradesh	25	78.4	High Sentiment
Gujarat	30	69.2	Moderate Sentiment
Odisha	20	51.5	Moderate Sentiment
Rajasthan	35	82.0	High Sentiment
Maharashtra	25	48.6	Low Sentiment

ANNEXURE 3

STATE-WISE SAMPLE DISTRIBUTION FOR SURVEY

Study Universe

Group A: Farmers who participated in the 212 WDRA-organized farmer awareness programs during FY 2024–25: 320 Farmers

Group B: Farmers registered with and having transacted through WDRA-accredited warehouses using the e-NWR system during the same period: 80 Farmers.

State-Wise Sample Distribution for Group A

(Adjustments can be made based on operational feasibility and respondent availability)

Based on the Data received for FY 2024-25

State	Total Participants	% Share	Sample from Group A
Andhra Pradesh	394	3.6%	12
Assam	555	5.1%	16
Gujarat	800	7.4%	24
Haryana	701	6.4%	20
Karnataka	305	2.8%	10
Kerala	1719	15.8%	50
Madhya Pradesh	300	2.7%	10
Maharashtra	528	4.9%	16
Odisha	401	3.7%	12
Rajasthan	820	7.5%	24
Tamil Nadu	1240	11.4%	36
Telangana	1214	11.2%	36
Uttar Pradesh	750	6.9%	24
Uttarakhand	410	3.7%	12
West Bengal	732	6.7%	22
Total	10869	100%	320

Sampling Method

1. Random sampling from program attendance lists and e-NWR transaction records provided by WDRA.
2. Stratified sampling within states to ensure geographical and demographic representation where possible.
3. State-wise sample Distribution for Group B shall be calculated as per the data received from WDRA.

ANNEXURE 4

PROPOSED REPORT CHAPTER

1. Executive summary
 - Key findings, AWSI results, conclusions, and recommendations at a glance.
2. Introduction
 - Background of the Farmer Awareness Program
 - Purpose and objectives of the Impact Evaluation
 - Scope and significance of the study
3. Evaluation methodology
 - Study design (mixed-method, FGDs, KIIs)
 - Sampling framework and sample size calculation
 - Data collection tools and techniques
 - Quality assurance mechanisms
4. Program Implementation Overview
 - Overview of farmer awareness programs conducted (state-wise)
 - Profile of training agencies and participants
 - Challenges faced during implementation (if any)
5. Findings: Farmer Awareness and Recall
 - Levels of awareness about WDRA, accredited warehousing, and e-nwr
 - Knowledge recall and comprehension levels among trained farmers
6. Findings: Adoption and Behavioral Change
 - Extent of adoption of WDRA-accredited warehouses and e-NWR post-training
 - Perceived benefits and operational challenges from farmers' perspective
7. Operational Feedback from Stakeholders
 - Insights from key informant interviews with warehouse managers, training agencies, and WDRA officers
 - Recommendations from ground-level operators for improving future programs
8. Agri Warehousing Sentiment Index (AWSI)
 - Awsi methodology and scoring framework
 - State-wise and national awsI results
 - Interpretation and implications
9. Conclusions
 - Summary of evaluation findings
 - Evidence-based conclusions on program relevance, effectiveness, efficiency, impact, and sustainability
10. Recommendations
 - Actionable suggestions for wdra to improve future awareness programs, warehousing service adoption, and farmer engagement
11. Annexures
 - All supporting tables, sampling plans, tools, AWSI scoring framework, and raw summaries from qualitative research

ANNEXURE 5

DETAILS OF THE PROGRAMS AND ATTENDANCE FOR FY 2024-25
